AMENDMENT

SIR:

Please amend the above-identified patent application as follows:

In the Claims:

Please amend claims 1, 2 and 13, and cancel non-elected claims 18-25 and 27-34 as follows:

1. (Amended) A therapeutic composition effective on contact with thrombin at a site of treatment in a patient as a tissue adhesive, hemostat or sealant, said composition comprising non-autologous, non-single donor mammalian, clottable fibrinogen recovered from a process comprising precipitating fibrinogen from a sample of non-human, mammalian blood plasma with polyethylene glycol 1000 and
